OVERVIEW

INDIA has pledged to achieve net-zero carbon emissions by 2070. This commitment reflects the country's strategy to balance economic growth with environmental sustainability. Key actions include decarbonizing the economy, expanding renewable energy capacity, enhancing energy efficiency, and implementing green technologies. The Earthy Green Foundation is pleased to invite you to a pivotal conference on achieving net-zero emissions, where diverse stakeholders will converge to shape a sustainable future. This summit will unite leaders from government, industry, academia, and civil society to collaborate on actionable strategies for reducing carbon footprints and accelerating the transition to a low-carbon economy.

- Climate action and adaptation plans
- Decarbonizing economy.
- Expanding renewable energy capacity.
- Implementing green technologies.
- Converging diverse stakeholders for sustainable future.
